

Our Commitment to Your Privacy

Termbusters Insurance provides you with insurance related tools and information to help you shop online for life insurance products.

The Information We Collect

The questions we ask on our site are used only to determine which Insurance companies and products best match your unique needs. Each Insurance company bases its final prices on its own criteria. To more accurately match you with the best company, product and policy for your needs, we gather some general health, lifestyle, family history, and contact information on our site. A licensed representative will then review your submission and, if necessary, either call or email you to clarify any outstanding issues and provide you with the information you request.

Does Termbusters sell my personal information to other companies?

No. Any personal information gathered by termbusters is used only for the process of qualifying you for Insurance products.

When does Termbusters provide my personal information to Insurance companies?

Only when you explicitly authorize us to begin the application process for the policy and carrier you choose.

How will the Insurance companies use my information once I authorize its release?

When you authorize it, information gathered during the application process is submitted to the insurance company you selected. Insurance companies use personally identifiable information to determine your final insurance eligibility and rates. The insurance companies have their own privacy policies, separate from the Termbusters Privacy Policy.
